

# HOTEL IBRAHİM PAŞA

## SUSTAINABILITY REPORT

## About the report

Since its establishment, our hotel has an identity that protects the local culture and heritage and considers it its duty to convey it correctly to its guests. While our building was being converted into a hotel, a renovation work was carried out to preserve its historical texture.

In the changes inside the building, care was taken to use local materials with a contemporary style.

The name of our hotel is taken from the Ibrahim Pasha Palace located next to it. On our website and in the written documents within the hotel, guests are given information about our building, the palace and the historical role of Ibrahim Pasha.

At our hotel, which is the first stop for many guests after the airport, we offer Turkish delight in our lobby and sherbet service to newly arrived guests so that they can try Turkish eating and drinking culture for the first time.

By offering free tea and Turkish Coffee to our guests whenever they wish during their stay, we enable them to meet this tradition, which is an important motif of our hospitality.

There are dozens of valuable books in our lobby and rooms containing historical monuments of Istanbul, written information and photographs about Turkey and Istanbul. In this way, we aim to provide more information about valuable figures such as Ara Güler and Mimar Sinan and their works, and to make sense of their visits.

Since 2015, we have been directing our guests to be sensitive about water and energy consumption with the labels we have placed in the rooms.

We have replaced all bulbs used inside and outside the building with LED bulbs, which consume much less energy, instead of incandescent.

We started our sustainability studies as of 2023. The development we have made in this direction; We aim to share it with our management, employees, guests, suppliers and all our other partners and thus increase the awareness we will create at this point and turn it into common goals and successes.

This prepared sustainability report includes data for the year 2023-2024.

## Facility Introduction and Facility Features

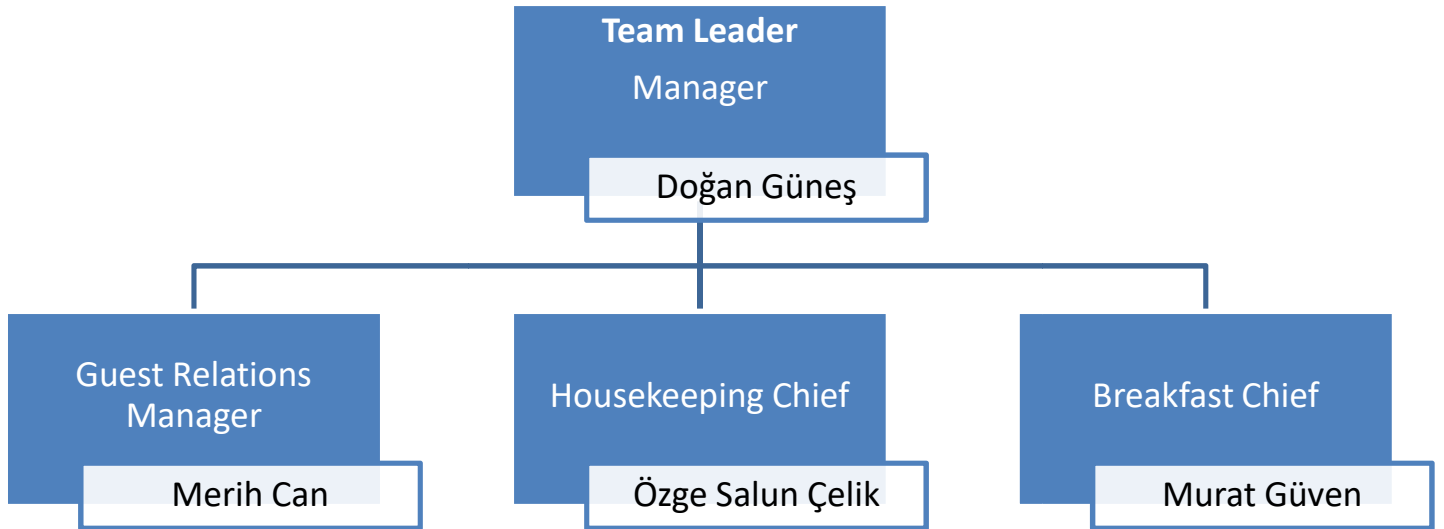

There are 24 rooms in our hotel and our facility is open throughout the year.

Our facility, which operates with a bed/breakfast concept, has a breakfast room on the ground floor that can serve 16 people at the same time. In our lobby, which consists of two parts, there are seating groups, a library and a reception where guests can spend time comfortably.

On the top floor of our building, there is an open-air terrace that offers guests a viewing pleasure with views of the Blue Mosque and the Marmara Sea.

## Sustainability team

## Reducing Environmental Impacts

Since 2015, we have been directing our guests to be sensitive about water and energy consumption with the labels we have placed in the rooms.

**We have replaced all bulbs used inside and outside the building with LED bulbs, which consume much less energy, instead of incandescent.**

**In our electrical and electronic purchases, we pay attention to the energy label and choose products that work efficiently and use less electricity (e.g. hair dryers, bathroom fans, minibars, etc.).**

**We choose cleaning products with natural ingredients that are less harmful to the environment. We inform staff about the correct storage and use of these products and the disposal of their finished packaging.**

## Staff and Working Life

While we pay attention to the employment of local employees in personnel recruitment, we pay attention to maintaining the ratio of men and women. Working hours and duties of employees are arranged taking into account their physical and mental health.

Surprise meetings are organized on special occasions such as birthdays.

On the one hand, efforts are made to arrange the working hours of the personnel who study at the university and continue their working life in a way that they do not have difficulties in their school life.

Staff are informed about environmental awareness, sustainable tourism and possible innovations in practice.

## Cultural Studies

On the map we have prepared, we provide guests with information about the city's must-see ruins and local businesses. On our bulletin boards in the lobby, we provide up-to-date news about cultural and artistic activities in the city, as well as suggestions that will enrich their visit.

We encourage our guests to come back to our country by informing them about the beauties of other regions of our country. We cooperate with local agencies regarding this.
